

QUARTERLY REPORT

JANUARY - JUNE 2023

Delivering sustainable solutions

FROM END TO END AND BEYOND

Elanders is a global logistics company with a broad range of services of integrated solutions in supply chain management.

The business is mainly run through two business areas, Supply Chain Solutions and Print & Packaging Solutions. The Group has over 7,000 employees and operates in some 20 countries on four continents. The most important markets are China, Singapore, the United Kingdom, Sweden, Germany, and the USA. Our major customers are active in the areas Automotive, Electronics, Fashion, Health Care and Industrial.

This information is information that Elanders AB is obliged to make public pursuant to the EU Market Abuse Regulation and the Securities Markets Act. The information was submitted for publication, through the agency of the contact persons set out above, at 07:30 CET on 12 July 2023.

First six months 2023

- Net sales increased to MSEK 7,040 (6,897), which corresponded to an organic net sales reduction of five percent, excluding acquisitions and discontinued operations, and using unchanged exchange rates. The reduction is mainly due to normalized freight rates and linked to the Group's Air & Sea freight forwarding operations.
- Adjusted EBITA increased to MSEK 427 (410), which equaled an adjusted EBITA margin of 6.1 (6.0) percent.
- The period's reported result included one-off items of MSEK -81 (40). Most of these referred to the historical errors discovered in one of the Group's companies in North America, which were corrected in the first quarter. The remaining part refers to a provision for additional consideration for an acquisition that has developed better than expected.
- Adjusted net result amounted to MSEK 156 (191), corresponding to SEK 4.37 (5.19) per share.
- Reported net result amounted to MSEK 90 (231), corresponding to SEK 2.48 (6.32) per share.
- Operating cash flow increased to MSEK 1,049 (487).
- Cash conversion increased to 116.6 (52.0) percent.

Second quarter 2023

- Net sales were MSEK 3,450 (3,525), which corresponded to an organic net sales reduction of nine percent, excluding acquisitions and discontinued operations, and using unchanged exchange rates. The reduction is to a large extent due to normalized freight rates and linked to the Group's Air & Sea freight forwarding operations.
- Adjusted EBITA amounted to MSEK 210 (224), which equaled an adjusted EBITA margin of 6.1 (6.3) percent.
- The period's reported result included one-off items of MSEK -14 (40) which referred to a provision for additional consideration for an acquisition that has developed better than expected. Last year's one-off items mainly referred to a revaluation of shares in associated companies in connection with a merger.
- Adjusted net result amounted to MSEK 79 (103), corresponding to SEK 2.21 (2.77) per share.
- Reported net result amounted to MSEK 65 (143), corresponding to SEK 1.80 (3.91) per share.
- Operating cash flow increased to MSEK 536 (187).
- Cash conversion increased to 112.0 (36.8) percent.

¹⁾ EBITA refers to operating result plus amortization of assets identified in conjunction with acquisitions.

²⁾ Return ratios have been annualized (the result has been recalculated to correspond to the result for a 12-month period).

³⁾ One-off items have been excluded in the adjusted measures.

⁴⁾ Net debt/EBITDA ratio adjusted excludes IFRS 16 effects and one-off items.

COMMENTS BY THE CEO

The second quarter was more challenging than the first quarter. Demand in North America is now also declining. On the positive side, Print & Packaging Solutions made a clearly better result this quarter than last year and cash flow improved significantly. We also continued to roll out the Bergen Logistics concept in more markets.

The drop in demand has primarily hit business area Supply Chain Solutions. The largest part of the decrease in sales was attributable to the Group's Air & Sea freight forwarding operations. This was due to a normalization of freight rates, and was expected. The drop in volume combined with some overcapacity in both the USA and Europe, which has arisen after the investments made before inflation began to soar, have put pressure on our margin. However, we see continued strong interest from new customers and expect to successively fill up unutilized capacity. A decline in volumes compared to the previous quarter is now becoming apparent even in North America, particularly in Fashion which is the Group's largest customer segment. There were major fluctuations in volumes from Automotive in Europe due to a continued shortage of components in their supply chain. However, our efforts to improve profitability in Automotive are beginning to bear fruit and have, among other things, compensated for the otherwise weaker market development. The closure of unprofitable road transportation operations in Germany, which we announced in the fourth quarter 2022, has now been concluded. The closure will have a positive effect on our margin going forward but a negative effect on net sales. We continue to expand the Bergen Logistics concept and at the end of the second quarter we started doing deliveries from Shenzhen in China.

Excluding one-off items, business area Print & Packaging Solutions showed a clear improvement compared to previous year despite a challenging market. We have now implemented higher

prices for most of our customers to compensate for the higher energy and material costs. Access to material has also stabilized, which increases efficiency in production. We continue to see a strong demand for online print which compensates for the declining demand for more traditional printed matter.

The higher interest rates and current net debt incur higher interest expenses. In order to counteract the negative effects of this, we continue to work actively to improve our cash flow and reduce our working capital. This is apparent in, among other things, the Group's cash conversion, i.e. the Group's ability to generate cash flows from results, which has significantly improved compared to the same period last year.

The Group's environmental work is progressing and right now we're mapping carbon emissions in our value chain, i.e. scope 3, which is going very well. We hope to have a result in the autumn so that we can then make a commitment within the Science Based Targets initiative, aimed at getting our climate targets approved in the coming years.

Magnus Nilsson

President and Chief Executive Officer

Mr M

GROUP

Elanders offers a broad range of services and total solutions in supply chain management. The business is run through two business areas, Supply Chain Solutions and Print & Packaging Solutions. The Group has over 7,000 employees and operates in some 20 countries on four continents. Our most important markets are China, Germany, Singapore, Sweden, the United Kingdom and the USA. Our major customers are active in the areas Automotive, Electronics, Fashion, Health Care and Industrial.

NET SALES AND RESULT

First six months

Net sales increased by MSEK 143 to MSEK 7,040 (6,897) compared to the same period last year. Cleared of exchange rate fluctuations, discontinued operations and acquisitions, net sales contracted organically by five percent. The reduction is mainly linked to business area Supply Chain Solutions and primarily due to lower freight rates in the Group's Air & Sea operations.

The market continues to be very uncertain. Many Group customers are finding it difficult to maintain volumes or grow at the same pace as previously. This affects large parts of the Group. A decline in volumes is now becoming apparent even in North America, particularly in Fashion which is the Group's largest customer segment. There were major fluctuations in volumes from Automotive in Europe due to a continued shortage of components in their supply chain. During the second quarter the closure of unprofitable road transportation operations in Germany, which we announced in the fourth quarter 2022, was concluded. This will have a positive effect on our margin going forward but a negative effect on net sales.

Excluding one-off items business area Print & Packaging Solutions presented a clearly better result than for the same period last year. This is in part due to the implemented higher prices for most of our customers to compensate for higher energy and material costs and in part because access to material has also stabilized, which increases efficiency in production.

Adjusted EBITA, i.e. the operating result adjusted for amortization of assets identified in conjunction with acquisitions and one-off items, increased by MSEK 17 to MSEK 427 (410). The improvement in the result is primarily due to changes in exchange rates that had a positive effect on adjusted EBITA by about MSEK 26. With one-off items included EBITA contracted from MSEK 450 to MSEK 345.

The period's one-off items amounted to net MSEK –81 (40). These were mainly a result of correcting historical errors in reporting from a subsidiary in business area Print & Packaging Solutions. These errors were corrected in the first quarter. The remaining part refers to a provision for additional consideration for an acquisition that has developed better than expected. Last year's positive one-off items mainly referred to a revaluation of shares in associated companies in connection with a merger.

Higher net debt and higher interest rates continued to have a growing impact on the income statement where interest expenses have increased considerably compared to last year.

Second quarter

Net sales contracted by MSEK 75 to MSEK 3,450 (3,525) compared to the same period last year. Cleared of acquisitions and discontinued operations and using unchanged exchange rates net sales contracted organically by nine percent. The reduction is mainly due to a weaker market and lower freight rates in the Group's Air & Sea operations.

Adjusted EBITA, i.e. the operating result adjusted for amortization of assets identified in conjunction with acquisitions and one-off items, contracted by MSEK 14 to MSEK 210 (224).

The period's reported result included one-off items of MSEK –14 (40) which referred to a provision for additional consideration for an acquisition that has developed better than expected. Last year's positive one-off items referred to a revaluation of shares in associated companies in connection with a merger.

Higher net debt and higher interest rates continued to have a growing impact on the income statement where interest expenses have increased considerably compared to last year.

Supply Chain Solutions

Elanders is one of the leading companies in the world in global solutions for supply chain management. The range of services includes, among other things, taking responsibility for and optimizing customers' material and product flows, everything from sourcing and procurement combined with warehousing to after sales service.

Net sales contracted organically in business area Supply Chain Solutions by nine percent compared to the same quarter last year, excluding acquisitions, discontinued operations and using unchanged exchange rates. Subscription box operations, which were previously part of business area Print & Packaging Solutions, are as of January 1, 2023, part of Supply Chain Solutions. The reduction in net sales in the business area was primarily due to a weaker market and lower freight rates in Air & Sea.

The market outlook continues to be uncertain. Diminishing demand could be discerned in the second quarter in all the major customer segments and markets, and this accelerated in the second half of the quarter. A decline in volumes is now apparent even in North America, particularly in Fashion which is the Group's largest customer segment. Several customers

in Automotive are still struggling with disturbances in their material and component flows. The somewhat weaker demand combined with the overcapacity the Group now has in both the USA and Europe, after the investments made before inflation began to soar, has put some pressure on profitability.

The closure of unprofitable road transportation operations in Germany, which we announced in the fourth quarter 2022, is now concluded. This business worked primarily with customers in Automotive and Industrial.

The second quarter result did not contain any one-off items. In the result from the corresponding quarter last year were positive one-off items of net MSEK 40 that referred mainly to a revaluation of shares in associated companies in connection with a merger.

(Last 12 months)

Supply Chain Solutions

| | First six months | | Second q | uarter | | |
|---------------------------------------|------------------|-------|----------|--------|-------------------|-------------------|
| | 2023 | 2022 | 2023 | 2022 | Last 12 months | Full year 2022 |
| Net sales, MSEK | 5,866 | 5,683 | 2,887 | 2,914 | 12,450 | 12,267 |
| EBITDA, MSEK | 858 | 839 | 423 | 459 | 1,700 | 1,682 |
| EBITA adjusted, MSEK ^{1) 2)} | 387 | 388 | 182 | 212 | 842 | 843 |
| EBITA-margin adjusted, % 1) 2) | 6.6 | 6.8 | 6.3 | 7.3 | 6.8 | 6.9 |
| EBITA, MSEK ¹⁾ | 387 | 428 | 182 | 252 | 794 | 835 |
| EBITA-margin, % | 6.6 | 7.5 | 6.3 | 8.7 | 6.4 | 6.8 |
| Cash conversion, % | 90.1 | 36.2 | 99.6 | 15.2 | 86.2 | 59.2 |
| Average number of employees | 5,928 | 5,830 | 5,888 | 5,908 | 5,946 | 5,897 |

¹⁾ EBITA refers to operating result plus amortization of assets identified in conjunction with acquisitions.

²⁾ One-off items have beend excluded in the adjusted measures.

Print & Packaging Solutions

Through its innovative force and global presence, the business area Print & Packaging Solutions offers cost-effective solutions that can handle customers' local and global needs for printed material and packaging, often in combination with advanced order platforms on the Internet, value-added services and just-in-time deliveries.

Net sales contracted organically in business area Print & Packaging by two percent compared to the same quarter last year, excluding acquisitions and using unchanged exchange rates. Subscription box operations, which were previously part of business area Print & Packaging Solutions, are as of January 1, 2023, part of Supply Chain Solutions.

The prioritized area online print continued to develop positively during the quarter. There were also positive effects from increased prices, while material supplies continue to be stable.

Barring one-off items, the business area reported a clearly better result compared to the same period last year. Several companies in the business area presented improved results. The one-off item that charged the result for the quarter was a provision for additional consideration for an acquisition that has developed better than expected.

Otherwise work on optimizing the business area's production apparatus continues. Traditional offset capacity suited for long series is successively being replaced by digital print equipment that provides greater flexibility and is better suited to shorter series. Investing in online print is a crucial component in this transition. There is considerable demand in this area which partially or completely compensates for the dwindling demand for more traditional printed matter.

¹⁾ EBITA refers to operating result plus amortization of assets identified in conjunction with acquisitions.

²⁾ One-off items have beend excluded in the adjusted measures.

IMPORTANT EVENTS DURING THE PERIOD

Historical errors in USA

Elanders has had historical errors in the reporting from one of its subsidiaries. This was attributable to the operations in Atlanta, USA, which belongs to the business area Print & Packaging Solutions

The errors amount to MSEK-67 and the operating result for the first quarter of 2023 was charged with the corresponding amount. About half of the effect related to year 2022 and the remainder to years 2019–2021. This will not have a negative impact on future cash flows.

Structural measures in Germany

In December 2022, it was decided that parts of the Group's road transport operations in Germany would be discontinued. The business was part of the business area Supply Chain Solutions and had profitability problems for a long time. These structural measures entailed one-off costs of approximately MSEK 50, which were charged to last year's earnings. These costs relate to termination wages, provision for onerous contracts as well as remaining rental costs for existing premises. The structural measures are expected to generate annual savings of MSEK 35 with full effect from 2023.

At the end of the second quarter, the closure was fully concluded. As a result of this closure, sales will decrease by MSEK 400 on an annual basis, of which MSEK 200 during 2023, with start in the second quarter.

The war in Ukraine and its aftermath

Russia invaded Ukraine in February 2022. Some of the Group's customers have subcontractors in Ukraine and Russia. These customers have therefore experienced problems with their supply chain. At the same time, inflation has increased sharply, and an energy crisis has emerged.

There is still a great deal of uncertainty about how long this will last and the extent of it. It is thus difficult to predict the exact impact in the coming year. Increased sanctions, scope of the war and electricity shortage could have a significant impact on the Group's operations.

Semiconductor and raw material shortage

The semiconductor and raw material shortage that has existed in some industries has had a negative impact on the Group's business in recent years. The shortage has at times created uneven capacity utilization in production when shift patterns have changed on short notice.

INVESTMENTS AND DEPRECIATION

First six months

Net investments for the period amounted to MSEK 68 (82). Depreciation, amortization and write-downs amounted to MSEK 600 (531).

Second quarter

Net investments for the period amounted to MSEK 37 (43). Depreciation, amortization and write-downs amounted to MSEK 306 (266).

FINANCIAL POSITION, CASH FLOW AND FINANCING

First six months

Operating cash flow for the period increased to MSEK 1,049 (487). This was mainly due to less tied up working capital this year and more tied up working capital in the corresponding period last year.

Net debt increased by MSEK 173 to MSEK 7,449 compared to MSEK 7,276 at the beginning of the year. Of the net debt increase, MSEK 396 accounted for currency effects, which related to the weakened Swedish krona. Net debt also includes debts related to put and call options measured at fair value and earn-outs. The increase in net debt includes changes in the value for these options of approximately MSEK 70, primarily related to the positive development in Bergen Logistics.

Excluding the effects from IFRS 16, net debt amounted to MSEK 3,055 compared to MSEK 3,022 at the beginning of the year. The increase was mainly due to changes in exchange rates, as the Group's financing is mainly in euros and US dollars.

Over a rolling 12-month period, the net debt/EBITDA ratio was 3.9 compared to 3.7 at the beginning of the year. The increase in the ratio is primarily due to the signing of several new long-term leases and the weakened Swedish krona. The new leases generate a somewhat skewed view of the net debt/EBITDA ratio. The entire leasing liability is reported directly while the EBITDA contribution is slight, particularly if the leases run for 10–15 years and especially in the beginning of the first year. Excluding the effects from IFRS 16 and acquisition costs and adjusted for proforma results for acquisitions and one-off items, the net debt/EBITDA ratio was 2.8 (3.1).

The Group's credit agreement contains financial covenants that must be met to secure the financing. The most important covenant is the net debt/EBITDA ratio that is calculated excluding IFRS 16 effects but adjusted for proforma results in acquisitions and excluding one-off items. This financial covenant was met by a good margin per the balance sheet date.

Several central banks have both carried out and announced further interest rate hikes, which will lead to increased interest expenses in the future since Group financing is largely based on a floating interest rate.

Second quarter

Operating cash flow for the period increased to MSEK 536 (187). This was mainly due to less tied up working capital this year and more tied up working capital in the corresponding period last year.

PERSONNEL

First six months

The average number of employees during the period was 7,168 (7,177), whereof 164 (164) in Sweden. At the end of the period the Group had 7,065 (7,273) employees, whereof 162 (173) in Sweden.

Second quarter

The average number of employees during the period was 7,119 (7,258), whereof 161 (169) in Sweden.

PARENT COMPANY

The parent company has provided intragroup services. The average number of employees during the period was 13 (13) and at the end of the period 14 (13).

OTHER INFORMATION

ELANDERS' OFFER

Elanders offers integrated and customized solutions for handling all or part of our customers' supply chain. The Group can take complete responsibility for complex and global deliveries that may include purchasing, storage, configuration, production and distribution. We also offer order management solutions, payment flows and aftermarket services for our customers.

The services are provided by business-minded employees who, with their expertise and aided by intelligent IT solutions, contribute to developing our customers' offers which are often totally dependent on efficient product, component and service flows as well as traceability and information. In addition to our offer to the B2B market the Group sells photo products directly to consumers via our own brands, fotokasten and myphotobook.

GOAL AND STRATEGY

Elanders' overall goal is to be a leader in global solutions in supply chain management with a world class integrated offer. Our strategy is to work in niches in each business area where the company can attain a leading position in the market. We will achieve this goal by being best at meeting customers' demands for efficiency and delivery. Acquisitions play an important role in our company's development and provide competence, broader product and service offers and enlarge our customer base.

Sustainability is an integrated part of Elanders' business and strategy and Elanders considers it a responsibility and a business opportunity that provides great opportunities to create value and improve profitability. Not only for Elanders or the Group's customers but society at large.

RISKS AND UNCERTAINTIES

Elanders divides risks into business risks (customer concentration, operational risk, risks in operating expenses, contracts and disputes), financial risks (currency, interest, financing/liquidity and credit risk) as well as circumstantial risks (pandemics, business cycle sensitivity and wars and conflicts). These risks, together with a sensitivity analysis, are described in detail in the Annual Report 2022

In conjunction with the war in Ukraine, the inflation has increased sharply and an energy crisis has emerged. These are also risks that may have a significant impact on the Group's operations.

In addition to what has been described above, other external circumstances that has occurred since the Annual Report was published are not believed to have caused any significant risks or influenced the way in which the Group works with these compared to the description in the Annual Report 2022.

SUSTAINABILITY

Sustainability is an integrated part of Elanders' business and strategy and Elanders considers it a responsibility and a business opportunity that provides great opportunities to create value and improve profitability. Not only for Elanders or the Group's customers but society at large. The demands regarding CSR made on major, multinational companies are just as high for their partners. Elanders' sustainability work is largely governed by the very high demands made by customers who in their own environmental and quality documentation stipulate requirements that suppliers must meet as well.

The investments Elanders is making in sustainable services, among them Renewed Tech, enables Elanders to take an active role and further contribute to a circular economy. In Renewed Tech, Elanders takes care of used IT equipment, renovating and restoring it. Then the equipment is sold to end customers that in this way reduce their environmental impact by purchasing used IT equipment. Elanders has the last few years, as part of this effort, made two acquisitions in Renewed Tech.

Reduction targets for greenhouse gas emissions

Elanders has committed to targets regarding reduction of greenhouse gas (GHG) emissions. The GHG reduction targets are both short- and long term.

- By year 2030, Elanders will reduce GHG emissions within scope 1 and 2 by 50 percent and scope 3 emissions related to own operations by 30 percent.
- By year 2040, Elanders will reduce GHG emissions within scope 1 and 2 by 75 percent.
- By year 2050, Elanders will achieve net zero over the entire value chain.

The baseline for above targets is year 2021. For 2021, emissions within scope 1 and 2 were approximately 27 and 14 thousand tons of CO₂e respectively. For 2022, greenhouse gas emissions within scope 1 and 2 were 25 and 13 thousand tons CO₂e respectively. Data for scope 3 emissions is currently being gathered and

Data for scope 3 emissions is currently being gathered and calculated.

SEASONAL VARIATIONS

The Group's net sales, and thereby income, are affected by seasonal variations. Historically the fourth quarter has been somewhat stronger than the other quarters.

TRANSACTION WITH RELATED PARTIES

The following significant transactions with related parties have occurred during the period:

- One of the members of the Board, Erik Gabrielson, is a partner in the law firm Vinge, which provides the company with legal
- The Group leases properties in two subsidiaries, where the properties are wholly or partly owned by minority shareholders within the Elanders Group.

Remuneration is considered on par with the market for all of these transactions.

EVENTS AFTER THE BALANCE SHEET DATE

Besides what have been described in this report, no other major events have taken place between the balance sheet date and the date this report was signed.

FORECAST

No forecast is given for 2023.

ACCOUNTING PRINCIPLES

The quarterly report for the Group has been prepared in accordance with the Annual Accounts Act and IAS 34 Interim Financial Reporting and for the parent company in accordance with the Annual Accounts Act. The same accounting principles and calculation methods as those in the last Annual Report have been used.

REVIEW BY COMPANY AUDITORS

The company auditors have not reviewed this report.

Segment reporting

The Group has defined two operating segments which are the same as the two business areas Supply Chain Solutions and Print & Packing Solutions. The reporting is consistent with the internal reporting provided to the highest executive decision-maker in the Group, the Chief Executive Officer of the Elanders Group. The operations

within each operating segment have similar economic characteristics and resemble each other regarding the nature of their products and services, production processes and customer types. Sales between segments takes place on market terms and have been eliminated in the Group's total sales.

NET SALES PER SEGMENT

| Group operating result | 299 | 406 | 172 | 241 | 743 | 849 |

Disaggregation of revenue

Revenue has been divided into geographic markets, main revenue streams and customer segments since these are the categories the Group uses to present and analyze revenue in other contexts. Revenue for each category is presented per reportable segment. The Group's customer contracts are easy to identify and products and services in a contract are largely connected and dependent on each other, and therefore part of an integrated offer.

Main revenue streams are presented based on the internal names used in the Group. Sourcing & Procurement services refer to the purchase and procurement of products for customers as well as handling the flows connected to these products. Freight and transportation services refer to revenue from freight and transportation with our own trucks as well as pure freight forwarding. Other supply chain services such as fulfilment, kitting, warehousing, assembly and after sales services are presented under Other contract logistics services. Other work/services refer to pure print services and other services that do not fit into any of the first three categories.

Intra-group invoicing regarding group functions is reported net in net sales to group companies.

Financial assets and liabilities measured at fair value

The financial instruments recognized at fair value in the Group's report on financial position consist primarily of derivatives, contingent considerations related to acquisitions and conditional put and call options regarding non-controlling interests.

The derivatives consist of forward contracts and are used for hedging purposes. Valuation at fair value of forward contracts is based on published forward rates on an active market. Derivatives for hedging purposes are recognized at fair value and are presented under other current assets and non-interest-bearing current liabilities. Changes in the value of cash flow hedges are reported in particular categories under other comprehensive income until the hedged item is recorded in the income statement. Any result on hedge instruments attributable to the effective part of the hedge are recorded as equity under hedge provisions. Any result on hedge instruments attributable to the ineffective part of the hedge are recorded in the income statement. These items are gross less than MSEK 1 both as of June 30, 2023, and the comparison periods.

Contingent considerations are recognized as financial liabilities

and at fair value on the acquisition date. Contingent considerations are remeasured at each reporting period with any change recognized in profit or loss for the year. As of June 30, 2023, the fair value of contingent earn-outs amounts to MSEK 71, compared with MSEK 53 as of December 31, 2022. The increase is due to revaluations during the second quarter as a result of the acquired company's positive development as well as exchange rate fluctuations.

Mandatory put/call options related to acquisitions of non-controlling interests are initially recognized as a financial liability at the present value of the strike price applicable at the period where the option can first be exercised. Changes in fair value for these liabilities are recognized in equity. As of June 30, 2023, the fair value of contingent earn-outs amounts to MSEK 563, compared with MSEK 486 as of December 31, 2022. The increase is due to revaluations made as well as exchange rate fluctuations.

The fair value of other financial assets and liabilities valued at their amortized purchase price is estimated to be equivalent to their book value.

Acquisitions and divestments of operations

Elanders has not made any acquisitions or divestments of operations during the first six months 2023.

Bonds Worldwide Holdings Ltd

In July 2022, Elanders signed acquired all the shares in the British Bonds Worldwide Holdings Limited with its subsidiaries Bonds Worldwide Express Limited and Bonds Technical Couriers Limited (together "Bonds"). Bonds is a leading player in the United Kingdom in special transportation and installation of advanced technical equipment. The company was privately owned and had net sales of around MGBP 5 in 2021 with good profitability.

The acquisition allows Elanders to offer unique solutions for special transportation as well as installation and returns of advanced technical equipment. The acquisition is also a step in increasing the portion of value-added services, particularly to customers in Electronics and Health Care. Bonds is now part of the business area Supply Chain Solutions and Elanders' sub-group LGI.

The purchase price amounted to about MGBP 5 on a cash- and debt-free basis. The acquisition has been financed with existing credit lines and the acquisition-related costs were less than MSEK 2. The purchase price allocation is preliminary.

PRELIMINARY PURCHASE PRICE ALLOCATION (PPA) BONDS

| MSEK | Recorded values in acquired operations | Adjustments to fair value | Recorded value in the Group |
